Inventor's Journal

1.

Date: _____

Name of my invention

What problem does it solve?

Who would use it?

Sketch out your invention below or if you need more space, use another piece of paper. Just try your best to visually capture your idea!

Make It Better!

2.

Take some time to discuss your idea with grown-ups, family, friends and classmates.

What feedback did you get?

What changes would you make?

If this is a physical product, what materials would you use?

If you had \$20, what would you do next?

Bonus: Pitch your idea in one sentence:

Once you have feedback, make some adjustments and go through this process again.
Make your idea better and better!
